B.Tech

Male

Examination	University	Institute	Year	CGPA/%
Graduation	KBCNMU	GCOE Jalgaon	2022-26	7.99
Intermediate/+2	HSC	Jeevan Vikas Vidyalaya	2020-22	74.17
Matriculation	SSC	Modern High School	2020	88.60

PROFESSIONAL SUMMARY

- Computer Engineering graduate with experience building AI-powered applications, backend systems, intelligent automation workflows, and production web platforms. Skilled in Python, JavaScript, FastAPI, REST APIs, SQL, LangGraph, and Generative AI technologies, with a strong builder mindset and experience taking products from concept to deployment.

CORE PROJECTS

- Tech Carvaan — Technical Fest Website** (Dec'25–Jan'26)
 - Built and deployed a production web platform supporting **5,000+ requests** within the first 10 days of launch.
 - Developed frontend interfaces, backend APIs, authentication workflows, and user-specific features from development to deployment.
 - Optimized performance, usability, and system reliability while collaborating with stakeholders to deliver production-ready functionality.
 - Link:** techcarvaan.in **Tech:** Laravel, React, REST APIs.
- Agentic Document Intelligence System (Autonomous RAG Backend)** (March'26)
 - Built an AI-powered document intelligence platform using FastAPI, LangGraph, and ChromaDB for intelligent querying over unstructured documents.
 - Developed ETL pipelines, hybrid retrieval (Vector + BM25), embeddings, and agent-driven reasoning workflows, achieving **83–88% accuracy** on retrieval and verification tasks.
 - Tech:** Python, FastAPI, LangGraph, ChromaDB, NLP.
- AURA: Multi-Agent AI Framework for Mental Health Support** (July'25–Aug'25)
 - Ranked **Top 3** at IBM SkillsBuild Pitch Night for developing a multi-agent AI framework using IBM Watsonx.
 - Designed specialized AI agents, prompt orchestration workflows, and contextual reasoning pipelines.
 - Built conversational workflows focused on personalized assistance, user guidance, and task automation.
 - Tech:** Python, IBM Watsonx, NLP, Prompt Engineering.
- Product Review Sentiment Analysis** (May'25–June'25)
 - Built an NLP pipeline achieving **87% accuracy** for large-scale review classification.
 - Performed preprocessing, feature extraction, and evaluation using Scikit-learn and NLTK.
 - Tools:** Python, Scikit-learn, NLTK, Pandas.

TECHNICAL SKILLS

- Programming:** Python, JavaScript, SQL, C++, C
- Computer Science Fundamentals:** Data Structures, Algorithms, Object-Oriented Programming, Problem Solving
- Frontend Development:** React, JavaScript, Responsive UI Development
- Backend Development:** FastAPI, REST APIs, API Integration, Authentication Workflows
- Databases:** SQL, Database Design, Data Modeling, ChromaDB
- AI & Generative AI:** AI Agents, LangGraph, RAG Systems, Prompt Engineering, LLM Applications, NLP
- Machine Learning:** Scikit-learn, NLTK, Text Classification, Model Evaluation
- Cloud & DevOps:** AWS Fundamentals (EC2, S3, DynamoDB), Docker (Basics), Git, GitHub
- Development Tools:** GitHub Copilot, Cursor, Claude, ChatGPT, Jupyter Notebook

WORK EXPERIENCE

- AI Developer** | AI Club, GCOE Jalgaon (Aug'25–May'26)
 - Contributed to AI-powered projects involving intelligent agents, workflow automation, API integrations, and prompt engineering.
 - Collaborated on experimentation, implementation, and evaluation of AI applications while sharing technical knowledge across the club.

LEADERSHIP

- Co-Convenor**, Technical Council 2026 — Coordinated technical events and workshops.
- Database Manager**, Training & Placement Cell — Maintained recruitment databases.
